

# ACHIEVING PROCEDURAL SEDATION WITHOUT CONTROLLED SUBSTANCES

## AN INTRODUCTION TO CLONIDINE

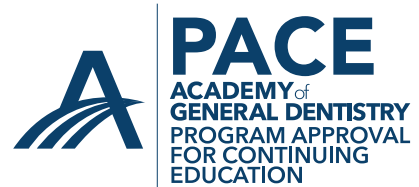

**PRESENTED BY**  
**DAVID M H LAMBERT, DDS**

This course is given by David MH Lambert, DDS - a board certified oral and maxillofacial surgeon, former clinical pharmacist, and chief informatics officer of CE Dojo. This 2 hour continuing education course offers strategies for procedural sedation for practitioners who do not possess a sedation permit or for those who have chosen to forgo maintaining their DEA permit necessary for controlled substance prescribing. The course will introduce the attendee to the use of clonidine - alone or in combination with other more traditional agents - its history, pharmacology, indications, unique properties, and considerable margin of safety. This course will also serve as an ADA CERP qualified program to provide 2 CE hours credit toward MATE Act requirements for DEA permit renewal
