

# The Infinite Knowable Unknowns:

## CONTROLLED SUBSTANCES, THE LAW, & YOU

### PRESENTED BY DAVID M H LAMBERT, DDS

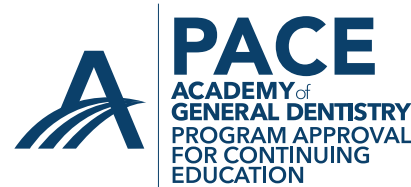

This educational program, led by David MH Lambert, DDS - a board certified oral and maxillofacial surgeon and clinical pharmacist - focuses on the vital aspects of Controlled Substances management in healthcare. It covers key topics such as the role of the Drug Enforcement Administration (DEA) and the necessity of DEA permits, the intersection between state licensing and DEA permits, best practices in prescribing, and the critical importance of record-keeping and inventory management within healthcare offices. Additionally, it addresses the different DEA Schedules, introduces the Medication Access And Training Act (MATE Act), emphasizes security measures, and outlines essential do's and don'ts when handling Controlled Substances. Overall, this program aims to provide healthcare practitioners, particularly dentists, with comprehensive knowledge to ensure compliance and patient safety in the realm of Controlled Substances.

Peak Compliance Services is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry.

**COURSE TITLE:** The Infinite Knowable Unknowns: Controlled Substances, the Law, & You

**COURSE DIRECTOR:** David M H Lambert, DDS

**PRESENTER(S):** David M H Lambert, DDS

**AUDIENCE:** DDS/DMD

**CONTACT HOURS:** 2.0

**MEDIUM:** Webinar

## COURSE OBJECTIVES

1. Understand the concept of Controlled Substances and their significance in the field of healthcare.
2. Familiarize oneself with the Drug Enforcement Administration (DEA) and the role it plays in regulating Controlled Substances.
3. Recognize the relationship between a healthcare practitioner's state license and their DEA permit, and the importance of maintaining compliance with both.
4. Learn what healthcare practitioners can and cannot prescribe, taking into consideration the state's regulations and the nature of Controlled Substances.
5. Comprehend the rules and best practices regarding the handling and disposition of Controlled Substances in a healthcare office.
6. Understand the different Drug Enforcement Administration (DEA) Schedules and the criteria used to classify substances within these schedules.
7. Familiarize oneself with the Medication Access And Training Act (MATE Act) and its requirements for health care practitioners, particularly dentists.
8. Learn the responsibilities associated with maintaining records and inventory of Controlled Substances, including the use of DEA Form 222 and proper disposal procedures.
9. Recognize the importance of security measures when handling Controlled Substances and the consequences of theft or diversion.
10. Understand the Do's and Don'ts related to prescribing, dispensing, and handling Controlled Substances in a healthcare setting.
11. Gain an overall understanding of the topic of Controlled Substances and their management in healthcare, including the legal and regulatory aspects.
