

WEBINAR

STRATEGIES FOR ACUTE PAIN MANAGEMENT

IN DENTISTRY

PRESENTED BY DAVID M H LAMBERT, DDS

The course given by David M H Lambert, DDS – a board certified oral and maxillofacial surgeon and former clinical pharmacist. This unique two hour course entails an overview of the opioid crisis as it exists today, including a review of the physiology of pain, the pharmacology of analgesics, strategies for managing acute pain, in addition to regulatory compliance issues as related to the NCBDE, closed case reviews, and tips for avoiding licensure pitfalls. This course will also serve as an ADA CERP qualified program to provide 4 CE hours credit toward MATE Act requirements for DEA permit renewal.

This continuing education activity has been planned and implemented with the standards of the ADA Continuing Education Recognition Program (ADA CERP) through joint efforts between Peak Compliance Services and CE Dojo.

Peak Compliance Services is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Peak Compliance Services designates this activity for 2 hours of continuing education credits.

COURSE TITLE: Strategies for Acute Pain Management in Dentistry

COURSE DIRECTOR: David M H Lambert, DDS

PRESENTER(S): David M H Lambert, DDS

AUDIENCE: RDH, Dentists

CONTACT HOURS: 4.0

MEDIUM: Webinar

COURSE OBJECTIVES

1. Identify and discuss the evolution of the opiate crisis as we now understand it today
2. Identify and discuss how the COVID-19 pandemic has impacted the opiate crisis
3. Identify and discuss the local and national opiate epidemic statistics
4. Identify and discuss specific opiate epidemic statistics as they relate to Dentistry
5. Identify and discuss patient variables as they relate to the opiate epidemic
6. Review basic pain pathophysiology
7. Review basic pharmacokinetic concepts with emphasis on general metabolic pathways
8. Review opiate pharmacology and discuss individual agents with emphasis on their relative potency, efficacy, and toxicity
9. Review non-opiate pharmacology and discuss individual agents with emphasis on their activities, efficacy, and toxicity.
10. Review non-opiate multi-modal therapy and its application in Dentistry
11. Discuss the role of prescription opioids when employed in multi-modal therapy
12. Identify and discuss the importance of obtaining a proper patient history
13. Identify and discuss typical scenarios where dental patients may require analgesic support and how their proper management can mitigate excessive opiate prescribing
14. Identify and discuss inappropriate and potentially illegal opioid prescribing behaviors
15. Identify and discuss the profile characteristics of the malingering dental patient including diversion and factitious injury
17. Identify and discuss strategies to avoid triggering a pharmacy complaint to the a dental board
